ACCOUNTS PAYABLE BUILT FOR CANADA

Pay every supplier on time, with every tax coded right.

Tallybridge captures, approves, and pays your supplier invoices, and syncs with QuickBooks, Sage, Xero, and more. Live in under 10 business days.

Priced in CAD. No per-user fees for approvers.

Illustrative screen. HST (Ontario 13%) split and GL coded automatically.

71%
less invoice processing time

CAD 4
per invoice, down from about CAD 14

3 days
faster month-end close, on average

Results from 6 Tallybridge design partners over 7 months.

THE PROBLEM

Manual accounts payable costs more than it looks.

10 to 25 hours a week
Finance staff key invoices and chase approvals instead of running the business.

Lost and late invoices
Invoices sit in inboxes, causing late fees and strained supplier relationships.

Tax coding risk
GST/HST, PST, and QST differ by province, and manual splits invite errors.

Payment fraud
Fake vendor emails and changed bank details get through when nothing verifies them.

HOW IT WORKS

From inbox to paid in four steps.

1

Capture

Forward by email, upload, or use the supplier portal. Fields are read for you.

2

Approve

Route by amount, department, or project. Approve from your phone.

3

Pay

Schedule EFT, Interac e-Transfer, or cheque payment runs.

4

Sync

Two-way sync with QuickBooks Online, Sage 50, Xero, Acomba, and NetSuite.

FEATURES

Control without complexity.

Smart invoice capture

OCR plus machine learning reads vendor, dates, amounts, and line items.

Province-aware taxes

GST/HST, PST, and QST split automatically for each invoice.

Approval workflows

Multi-level rules with a full audit trail for every decision.

Three-way PO matching

Match invoices to purchase orders and receipts before you pay.

Bank detail verification

Changed supplier bank details are flagged for verification before money moves.

English and French

A full bilingual interface, written for Quebec teams.

BUILT FOR CANADA

Not a U.S. tool retrofitted for Canadian rules.

Canadian taxes, Canadian banking rails, and Canadian data residency from day one.

- GST/HST, PST, and QST coded by province
- EFT and Interac e-Transfer payments
- Data stored in Canada (AWS Montreal)
- Priced in CAD with no hidden fees

PRICING

Simple pricing in Canadian dollars.

Billed monthly, or save 15% on annual plans. No per-user fees for

approvers.

Starter
